

THE KING OF AUTOMATION PROFILE & PITCH PERFECTION

Discover new possibilities with BRECO® ATN TRANSPORT;
the modular technology for indexing and transport belts.

Design

- Modular system
- Standard pulleys used
- Infinite attachment possibilities
- Flights accept customer attachments
- Standard inserts
- Different flight materials can be used
- Variable flight spacing

Performance

- Mechanical joint available
- High shear resistance
- Faster flight change in use

Assembly

- High flight spacing precision
- No need to remove belt when changing flights
- Flights can be adjusted on installation

Versatile design, application
and assembly in a single belt!

BRECO® Keeps You Moving
